

Sens[®] Box

Modified atmosphere chamber

Experimentation with modified atmospheres, hypoxic gas mixture and volatile compounds

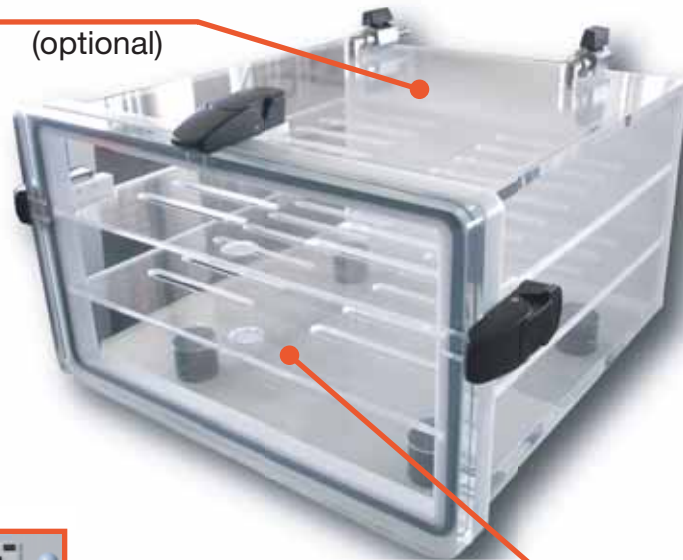

O₂ sensor & data logging

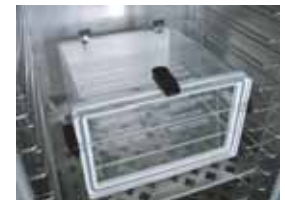

O₂ sensor cover

O₂ monitor software

(optional)

Sized for most incubators

1, 2 or 3 shelves

Specifications

- Aging & U.V resistant
- Rigidity and chemical resistance
- 1, 2 or 3 shelves

Upon request

- O₂ probe for oxygen monitoring and data logging
- Data logger with Wireless interface communication
- Full compatible with O₂Sens Driver for an atmosphere controlled experimentation
