

# Modified Atmosphere Workstation

Workstation for your critical experiments

Glove box

Imaging black box

Touch screen

Glove

Air-lock

Pass-through

Gas driver

Capping

## Specifications

- Aging & U.V resistant
- High workspace visibility and transparency
- Rigidity and chemical resistance
- Convenient touch screen interface
- Oxygen rate programming - preconditioning cycles
- Continuous gas, temperature and humidity monitoring & data logging
- Alarm settings and data e-mailing

## Standard

- O<sub>2</sub> control, 0 to 20 %
- CO<sub>2</sub> infrared control, 0 to 20 %
- Automatic humidity and temperature control
- Microprocessor control based system
- Internal power supply

## Upon request

- Electric, network and fiber optical access
- Glove choice : Latex, Hypalon, Vinyl ...
- UV Sterilisation, color lighting
- Oxygen control : 0 to 100%
- Cover thermal protection
- Biological media dumping
- Remote control
